DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree under the Clean Air Act

On June 24, 2015, the Department of Justice lodged a proposed Consent Decree with the United States District Court for the District of New Mexico in the lawsuit entitled *United States v. Arizona Public Service Company, et al.*, Civil Case No. 1:15-cv-00537 (D. N.M).

In this civil enforcement action under the federal Clean Air Act (“Act”), the United States alleges that Arizona Public Service Company, El Paso Electric Company, Public Service Company of New Mexico, Salt River Project Agricultural Improvement and Power District, Tucson Electric Power Company, and Southern California Edison Company (collectively the “Defendants”), failed to comply with certain requirements of the Act intended to protect air quality at the Four Corners Power Plant located near Shiprock, New Mexico. The complaint seeks injunctive relief and civil penalties for violations of the Clean Air Act’s Prevention of Significant Deterioration (“PSD”) provisions, 42 U.S.C. 7470-92, and various Clean Air Act implementing regulations. The complaint alleges that Defendants failed to obtain appropriate permits and failed to install and operate required pollution control devices to reduce emissions of sulfur dioxide (“SO₂”) and/or nitrogen oxides (“NO_x”) at the Four Corners Power Plant.

The proposed Consent Decree would resolve violations for certain provisions of the Act at the Four Corners Power Plant, and would require the Defendants to reduce harmful SO₂, NO_x, and particulate matter emissions through the installation and operation of pollution controls. The Defendants will also spend \$6,700,000 to fund environmental mitigation projects that will further

reduce emissions and benefit communities adversely affected by the pollution from the plant, and pay a civil penalty of \$1,500,000.
